

DATE: December 9, 2015

TO: All Physicians, Residents, Clinical Managers and Educators at SJH and HHSC

FROM: Dr. T. Chetty, Discipline Director Clinical Chemistry and Immunology

RE: **Change in Critical Phosphate Levels**

Please note that effective December 10, 2015, we will be implementing the following changes to the critical phosphate values:

- Adult Critical Value to ≤ 0.30 mmol/L (from ≤ 0.25 mmol/L)
- Introduction of Pediatric Critical Value of ≤ 0.40 mmol/L
